

“Bible 4-3-2” Instructions

The Concept: Players will be asked to list four, three or two answers to each question. The questions will be about stories from or books of the Bible.

Items Needed: Pens and paper.

Instructions: Split the group into teams. Pass out a few sheets of paper and a pen to each team. For each question the person writing down the answer will change. Once the player is finished writing down his/her team’s answers, they will run to the front and place the sheet of paper on a chair/table/small animal. Since the game has 12 questions, try to keep the teams to less than 12 people. This way each person will have at least one turn as the writer/runner.

Some of the questions have more answers than are listed on the answer screen. The answers that will most likely be provided by the players are given, but there are other answers that are correct. If you know the team has provided a correct answer, give them credit for the question.

Scoring: One point for each correct answer. You can deduct one point each time the first team to the front provides an incorrect answer if you want to. There’s a tiebreaker if any of the teams are tied after the last question.

The tiebreaker question asks the teams that are tied to try and think of as many of the 12 disciples as they can. Give them a 20 or 30 second time limit to write down their answers. The team with the most correct answers wins.
